

He Speaks with Forked Tongue

by

Phil Rasmussen

During Biden's return from visiting to Israel, on October 18, he announced that the US will provide \$100 million in aid to Palestinians in Gaza. When asked about discussions Israeli leadership on providing aid to the Gaza Strip, Biden made the following statements:

Biden – “It took a long time to work this out.”

Reporter – “Was he reluctant at all?”

Biden – “No, not at all. We had a number of discussions. I got no pushback. Virtually none. “ (<https://www.pbs.org/newshour/world/egypt-can-deliver-some-aid-to-gaza-as-doctors-struggle-to-treat-hospital-blast-victims>)

So, what is it Joe?

- Either there was reluctance or not on the part of Israel. Remember you said it took time to work things out and that you had a number of discussions.
- Either there was no pushback or there was. Remember you said there was virtually no pushback. That means that there was at least some pushback.

He speaks with forked tongue

- In 1982 (senator) Biden threatened to cut aid to Israel.
- In June, 2023, Biden ended support for Israeli research institutions
- Biden's \$100 million aid package to Gaza Strip did not include any hostage negotiations
- On Oct 20th, Biden requested a \$105 billion security package for aid to Israel (\$14.3 billion) and Ukraine (\$61.4 billion). (<https://www.cnn.com/2023/10/20/politics/biden-administration-israel-ukraine-congress-funding/index.html>)
- During his visit to Israel, Biden reaffirmed America's commitment to Israel.
- For more information on Biden's negative actions toward Israel, read: <https://www.hudson.org/foreign-policy/biden-turn-against-israel-michael-pompeo-elan-carr>

He speaks with forked tongue

Biden's administration states that our borders are secure. Yet more than 8 million people have entered the US illegally since Biden took office in January, 2021. (<https://highlandcountypress.com/illegal-aliens-2021-total-more-individual-populations-38-states-illegal-crossings-top-8-million#gsc.tab=0>)

Biden states that the economy is better *than ever*. Yet the earnings of most U.S. households has significantly declined, inflation is still uncomfortably high, the cost of everyday staples are at a record high, and affordable housing is decreasing across the nation.

He speaks with forked tongue

Recently, Biden signed an executive order (EO) on artificial intelligence (AI). The White House released a statement that it had a "duty to prevent" AI discrimination and that it must be shared equitably. After Biden's signing of the EO, VP Harrist stated that she and Biden consulted with "**everyone** from "computer scientists to civil rights leaders to legal scholars and business leaders." This is another flat out lie since everyone would also include you and me.

In response to Biden's EO, American Accountability Foundation (AAF), an industry watchdog organization, "cautioned that the Biden administration is attempting to ingrain AI technology with radical leftist ideology" based on "racially obsessed social academics and activists." (Fox News Digital)

He speaks with forked tongue

Thanks to the Internet, fact checking what people say has become a norm for the political arena. Time and again, Biden has been caught in making false statements and lying to the public. While much of this lying has been ignored by the mainstream media with regard to Biden, they will, with exuberance, pick apart what conservatives, Republicans and Independents say and criticize their every actions.

However, his forked tongue hypocrisy is not only deceitful but also more corrosive to our national security, economic independence, and personal freedoms.

Since Biden's push for electric vehicles, his Energy Department has expanded its illegal role to dictate what type of stoves, washing machines and dryers that people can buy. Such dictates are infringements on personal freedoms and are not based on any scientific findings.

When considering China's essential monopoly over much of the world's rare earth the minerals used to create an electric based consumer environment, Biden's push for "everything electric" does not support national security and economic freedom. Simply put, China would have a much greater strangle hold on the US than it did during the COVID pandemic with its monopoly on PPE (personal protective equipment).

He speaks with forked tongue

Biden's administration is fraught with forked tongued doublespeak. As long as Americans allow this to continue trust in government will remain at risk. America's history tells us two important facts to remember:

"I'm from the government and I'm here to help."

Ronald Reagan, 1986

"White man speaks with a forked tongue"

Menlnock-chieftain of Taklma Tribe
