

## **The Capitol Attack – An Awakening**

Since January 6<sup>th</sup> a lot of facts and disinformation has come to light. But as you will see, this is not the first attack on the Capitol in modern history.

It is now known that the attack took place while Trump was asking for a peaceful march, blocks away. It is also well known that AOC lied about her “harrowing” tale.

AOC claimed that she closed the door to her office and hid in the bathroom. She claimed that she was “cowering in fear as the violent dissidents closed in.”

So what is the truth? While it is said that the “truth lies in the eye of the beholder,” AOC’s truths, and that of many Democrats, and, are truly skewed from what is reality.

Fact, AOC was not at the Capitol. Her office is in the Cannon House Office Building, a 6-minute walk due south of the National Mall. Her office building was most likely being evacuated because of a bomb found at the NRC. There were no “hordes of Trump supporters” even near her office.

While AOC’s “story” went further to denigrate the Capitol Police and law enforcement in general. Further she feels no remorse or repugnancy at using the deaths of Capitol Police officers to push her leftist socialist agenda.

While the attack on our Capitol struck at the core of our government, many members on both sides of the aisle condemn it. The left has unabashedly used the incident to further push its agenda to impeach Trump and gain further control over the American people.

However the reality is that the Dems and left never condemned the rioting, looting and killing that took place for the past year and even 1983 when Susan Rosenberg bombed the US Senate. She was pardoned by Clinton and is now an administrator for Black Lives Matter.

For eight plus years, the Dems and Left became embolden to waged war against our government and conservatives in an effort to overthrow the US

government and turn our country socialist. They pervasively moved to deny our US constitutional rights, block the process of government, and have held our people hostage during a national security crisis – the Covid pandemic.

While thinking that they have beaten down the people, incited violence against governments and law enforcement, their perceived successes gave them a false security. This feeling was shattered with protestors entered the US Capitol, where many of the Dems and Left were meeting to ratify Biden as president.

The attack on our Capitol was retribution for the pent up anger and frustration of the good people of America over the bullying, criminal actions of the Democrats and Leftists. Even with the retaliatory actions of the Dems and Left, the attack struck FEAR into the hearts of these criminals.

I predict this will not be the last attack. The Dems and Leftist have awakened a sleeping tiger. While many conservatives will act within the law to return our nation to its founding principles, make no mistake, that there are those who will also use force to bring our nation back from this brink into the abyss of hell.

**The Capitol attack should be a reminder that government is supposed to serve the people and not the other way around.**
