

The Hypocritical Biden

by
Phil Rasmussen

Since his inauguration, Biden has been nothing but hypocritical.

He promised not to raise taxes and yet he has done so openly and covertly on the middle class via their IRAs and 401Ks.

He promised many things to get elected and now is reneging on most of them.

Employing a benign attitude, Papa Joe, his minions and socialist handlers, have taken our nation one gigantic step toward socialism.

With total disregard for law, Papa Joe now wants to release the Covid-19 vaccine patents, which he does not own, to the world. This is outright theft and should be punished.

Biden's excuse for this theft is to save lives around the world. If he is so concerned about saving lives, then he needs to stop the migration of children along our southern borders. If he is so concerned, then he needs to also stop funding Planned Parenthood and needless abortions.

But Papa Joe has no such concern. He doesn't care about America and its people. His actions indicate a lack of respect for America and its people. He tries to present himself as being moral and ethical, yet fails miserably by blocking investigations into his family's criminal activities, and members of Obama's administration.

**Essentially Papa Joe is a hypocrite,
and does not deserve any respect.**
