

The Vaccine Push

When considering any of the Covid-19 vaccines, one needs to ask, “Why is there such a push for everyone to get vaccinated?”

The current excuse is the “newer, deadlier” Delta variant.

At this point it should be noted that the way “Covid” information is presented by governments, the media and health officials is confusing and apparently contradictory. It is important to understand that the root virus for all these discussions is – SARS-CoV-2.

Before the Delta variant came along a plethora of variants already existed. When Covid first appeared in the US, it had already mutated from the original one in China. Since then, like the flu and any other virus, other mutations or variants if you want to call them, have occurred.

England alone has experienced more than 17 variants. Likewise, India, China, Africa, all other parts of the world, many variants can be found. Currently in the US, the following variants are of concern:

Variants	WHO Label	First Detected
B.1.1.7	Alpha	United Kingdom
B.1.351	Beta	South Africa
B.1.351.2	Beta	South Africa
B.1.351.3	Beta	South Africa
B.1.427	Epsilon	California
B.1.429	Epsilon	California
B.1.525	Eta	United Kingdom/Nigeria
B.1.526	Iota	New York
B.1.526.1	Iota	New York
B.1.617.1	Kappa	India
B.1.617.2	Delta	India
AY.1	Delta	India
AY.2	Delta	India
AV.3	Delta	India
B.1.617.3	Kappa	India
P.1	Gamma	Brazil
P.1.1	Gamma	Brazil
P.1.2	Gamma	Brazil
P.2	Zeta	Japan/Brazil
P.3	Zeta	Philippines
C.37	Lambda	Peru

These variants share one specific mutation called D614G. This mutation was one of the first documented in the U.S. in the initial stages of the pandemic, after having initially circulated in Europe.

Before the Delta variant came along the South African. Beta variant was being touted to get people to be vaccinated.

Currently 12-year olds can be vaccinated WITHOUT parental consent. Read that as parental rights no longer apply, which is a socialist goal (eliminating the family unit).

Businesses, industry, educational institutions and stores are starting to require employees, students, and patrons to be vaccinated. An initial look into ownership/leadership of many of these entities requiring vaccination will show that Democrats, leftists, or socialists are at the helm of control.

Our current leftist, socialist oriented government is pushing for 100% vaccination. Yet, Dr. Robert Malone, the inventor and pioneer of mRNA vaccines, recently stated that there is a disturbing trend in that the most-vaccinated countries in the world are experiencing a surge in COVID-19 cases, while the least-vaccinated countries are not. (<https://www.zerohedge.com/covid-19/worrying-me-quite-bit-mrna-vaccine-inventor-shares-viral-thread-showing-covid-surge-most>).

People are starting to wake up to the fact that there may be something wrong with the vaccines. Not reported by mainstream media is the fact that in many European countries, people are protesting against the COERCION and UNLAWFUL discrimination to get people vaccinated, and against medical segregation and a 2 tier society.

Already the drug manufacturers are developing and testing so-called booster shots for the current and future variants of Covid. Of course these boosters will be recorded in each person's passport and, note this, government database.

As someone put it, "Do vaxx pass enthusiasts understand that the pass isn't valid forever after two shots, it's valid as long as you promptly follow every injection order you are given for the rest of your life."

There are only two reasons for mandating Covid vaccinations and their associated boosters – money and power (control of the people). As in most criminal investigations, one of the primary investigative techniques is called, "follow the money." While "Big Pharma" may be raking in millions/billions of dollars, it would be prudent to look at who is benefiting the most from those companies. If an open, unimpeded investigation were to be conducted, more than likely we will find that those benefitting the most are among the richest people in the world.

Also through investigation if the political aspects were equally investigated, the findings will probably lead back to the same individuals as the money trail.

Essentially it all comes down to the idolatry of money. IMHO, this means that those who practice the taking of money from others do not care about the welfare of those “beneath” them. The relatively few of the richest people in the world, worship the accumulation of wealth and have the desire for the rest of the world to become their slaves.

For many of us, our future welfare and wellbeing are in the hands of the godhead, our father who art in heaven – God and not in the false prophets, gods, or other idols.
