

Truth is Being Revealed

Every time I turn on the news there's another revelation that Fake Media had gotten its bumptious statements wrong. The latest being an audio recording between Trump and Georgia's secretary of state over voter fraud.

Many people voted for a moderate Biden as president. However his actions and those of the House and Senate prove differently. For example, \$1.9 trillion of taxpayer money will be spent on many things that taxpayers would never approve of. Additionally, apparently without any intellectual or meaningful thought, the Dems are aggressively working to overturn everything Trump, and change our long existing Bill of Rights.

For most us the Dems we knew are no longer around. The "Dems" are no longer embrace the Democrat philosophy, but rather see themselves as Demigods with Nancy Peolosi being the head demigod.

Through ignorant voting and criminal voter fraud, we now have a revisionist, socialist government intent on revising our Constitution, eliminating state rights, and controlling Americas.

A 150 years ago, Sir John Actos said it most wisely: "Power tends to corrupt, and absolute power corrupts absolutely."

The power of a one party government provides the impetus for our nation to become a socialist/communist, third-world nation.
