

Was It A Debacle?

by

Phil Rasmussen

During intelligence operations or investigations, information sometimes comes to light that appears to be coincidental. For example, if you unexpectedly running into a friend at the mall can be called a coincidence if there was not any prior planning. Often times however things come to light that may be coincidental but upon investigation, they are found to be related. We should not rule out events that may appear coincidental.

Let's look at another example – the 13 servicemen who were killed during the Afghanistan withdrawal. Was the fact that 13 Americans died coincidental or was it something else?

As Christians we believe God gave us free will to make our own decisions even though he has a plan not only for each of us but also for each nation. His plan is to save and redeem us.

Since the birth of our nation in 1776, God's light has shown upon us through peace and war, and the sickness and health that our nation and its people have experienced. The light that has shown upon us in this land began with thirteen colonies.

However, in recent times, our nation has pulled away from God and that bright light of his has faded. It is said that when Biden withdrew the United States of America from Afghanistan, that he essentially destroys our great nation.

Thus can it be that the death of thirteen servicemen signifies God's upset with us as a nation? Many people have called the death of these 13 servicemen the gateway to America's demise. Is this coincidence or planned? Your decision.

Now let's look at some other events.

Liberals say that the Afghanistan withdrawal was a success. Conservatives say it was a tragedy. Neither of these viewpoints are important if you look at the Afghanistan withdrawal from a different perspective.

Regardless of your viewpoint, America lost and Biden is making hay over it. After 20 years of war, Biden calls the withdrawal a success because:

- He ended the war
- Withdrew the largest number of American citizens ever
- He is working diplomatically with the enemy Taliban.

In 1956, Nikita Khrushchev stated, "We do not have to invade the United States, we will destroy you from within." Khrushchev's statement did not end in 1956. Well into the mid-60s he maintained he statement as a mantra to America's death.

In the mid-60s Biden entered college majoring in political science and history. This time period was also the height of protests against the Vietnam War and the “establishment” (government). For five years while in college, he avoided the draft. When the deferment ran out and the draft board caught up with him, Biden claimed he had asthma and was thus classified 4F – not acceptable for military service. This classification may well have been the beginning of Biden’s career as a criminal. Keep in mind that lying to the military and avoiding the draft are both criminal offenses.

Logic tells us that since Biden played on the football teams of both his high school and college that asthma was not an issue or he was devoid of the disease.

Logic also tells us that his adolescence years were spent in high school and college. It was during this time (mid-60s to early 70s) that many political science instructors were preaching a liberal view of government and politics. Also, it is during adolescence when sexual relationships and gender roles are formulated, and for team athletes it apparently plays a major role in their development.

In 1972 Biden entered national politics as a liberal, and has never held any other job since. He was mediocre student in high school and throughout his college years. His mediocre behavior carried over into his congressional years as well as his vice presidency. As president he has contributed NOTHING of value to our country.

Throughout his entire life since graduating from high school has been tied to crime, corruption, inappropriate behavior, and lately to treasonous behavior.

A common practice among criminals who are being questioned is deflection. This is definitely what Biden does with many of his orders and actions. Additionally, like career criminals, he does not demonstrate true emotions, compassion, or regret.

To understand Biden it is necessary to ignore what he says and pay attention to what he does. For example, many of Biden’s speeches are woven with references to God and biblical teaching. Yet he openly supports abortion and Roe v. Wade in direct conflict with is so-called Catholic beliefs.

There are far too many instances to enumerate here where Biden has said one thing, only to do the opposite within weeks after making such assertions. Are these”

- acts of a dysfunctional mind
- the actions of a lying, deceitful person who will do anything to push his agenda down the throats of the American public?

The latter is most likely.

When it comes to foreign affairs national security Biden's actions have always provided benefit to terrorists, and socialist and communist countries. None of his actions has been to deprive terrorists or "enemy" nation states.

The manner of the withdrawal from Afghanistan was no mistake. Biden received credible intelligence and military reports prior to his "decision" to withdraw. When questioned about this, his cronies stated that Biden did not trust the intelligence and military communities. This was total BS from his administration. Keep in mind that Biden replaced the Director of National Intelligence, the Director of the Central Intelligence Agency, the Secretary of State, the Secretary of Defense. These four individuals briefed Biden on the probably, and confirmed, outcome of the withdrawal. Thus Biden knew ahead of time what the outcome would be.

So why would he go ahead with is "preordained failure?" it has nothing to do with his mental state but rather with his political agenda, a strong desire to turn a republic state into a socialist state, to control the people.

Keep in mind that he and his administration have made no apology, shown any remorse, or demonstrated any compassion for the debacle along our southern border, the dictatorial actions over Covid vaccination, or the debacle of the Afghan withdrawal.

This is man and administration set to achieve only one thing – the conversion of a free democratic government to an overreaching and controlling socialist government.

**So was it a debacle, or a deliberate step to overthrow
our free and democratic way of life?**
